

February 1, 2017 - UPDATE ON THE P3 LEGISLATION...

Fiscal impact Report - NM Infrastructure Investment Act.

www.informedcynic.com/P3/P3-legislation/013117-fiscal-impact-SB-143-p3.pdf

In HB 275, Section 2- H(1)(n) under definitions of a public project (page 4 of the bill) seems to fit the APR plan. HB275 It will also be important to see if some of the language in HB 275 ends up in the broadband bill in a back-door type of move as this process progresses.

Link to HB275: www.informedcynic.com/P3/P3-legislation/2017-HB0275-p3.pdf

Food and Water Watch here in New Mexico is also an ally opposing the P3 legislation. Below is an analysis by Food and Water Watch of the President's proposal to privatize water and sewer systems. We need to continue watching the President's short list of infrastructure projects to be funded. (That may be a fake) To that end we have some help from a friend in DC, and I'll keep you posted. Link to Food and Water Watch: <http://www.foodandwaterwatch.org/>

Trump Attacks the Safety of Our Drinking Water - Trump's war on the EPA endangers our drinking water. His plans to gut the agency would sacrifice key programs that support and protect our public water supplies.

Democrat Plan for Infrastructure :
