

Did You Know? Socorro Electric Coop, along with 43 other coops, buys their electric power from Tri State Generating. They each send a representative to the monthly 2 day meeting in Denver. For two travel days and two meeting days they receive \$1600 as well as food and lodging. Our current Rep. is Donald Wolberg and the prior Rep was Leroy Anaya. This is, of course, in addition to the average \$800 they receive from Socorro Electric. Total for this representative is \$28,800 for a few days work per month {or more if they serve on committees}.
