

Dear Mayor Bhasker:

As a minority board member I can't speak for the board, but I can voice a minority opinion and warn my fellow board members that ignoring the City's actions will exacerbate the problem and result in a transfer of more co-op funds to lawyers who have failed to provide sound responsible advice while ignoring bylaws themselves.

I am requesting by copy of this message to Anne Dorough, Chair of SEC that she: Please add this topic to the Agenda of SEC's next board meeting; also add notification that the board plans to discuss and decide whether to appoint a professional polling and survey company to survey the membership to determine its opinion regarding a takeover of the co-op by the City of Socorro.

I think the board needs to plan and the views of the three trustees representing consumers residing in the Socorro City Limits should be allowed by the chair person.

Sincerely,

Charlie Wagner, Trustee
Socorro Electric Cooperative, Inc.
