

February 9, 2012 - Press Release

The following links to the Chieftain article on the two new motions in addition to the five previous motions detail the continuing bizarre actions of the SEC attorneys. You would think that Charlie was the opposing lawyer. Read it and know that your money is paying for these motions.

The second link is to the "Letters to the Editor" section. Scroll to the second letter by Herbert Myers which has been producing howls of laughter throughout Socorro according to one of our "Word on the Street" correspondents.
