

As of this morning, petition signatures total 1,025. . It is a member's victory that rises above all of the roadblocks and pettiness that have taken place during the past years of our attempt to reform the board and management. It clearly reflects the member's strongly held belief that they have the right to vote on Resolutions passed at a District Meeting as prescribed in the SEC Bylaws. The petition for the Special Meeting of the Members will be handled according to SEC Bylaw (ARTICLE III. Section 2.) and N.M. State Law (Rural Electric Cooperatives. 62-15-17).

There are still some petitions being held by members and/or places of businesses. Please call either 575-854-3397 or 575-418-7468 to arrange for pick-up. It is important that this be done as soon as possible. The petitions will be presented to the manager of the Socorro Electric Cooperative and the President of the SEC Board of Trustees.
