

October 1, 2013 –

The first batch of videos of last Wednesday's meeting are posted at www.informedcynic.com along with documents concerning the settlement of the Torres/Pineda lawsuits against the cooperative. The board with the exception of Trustee Wagner voted to settle the suits rather than go to trial. Also posted is the rewriting of the bylaws by an entity called the "Members' bylaw committee" chaired by Trustee Mauldin. Other people serving on this committee are unidentified. What is known that under federal and state law, the members have the sole right to propose and alter the bylaws of the coop. The trustee and management are attempting take over this right and privilege – witness their illegal activities concerning the district five resolutions. This matter needs to be further addressed at the up coming district meetings although the days and times of the District 1 &4 meeting have been selected to discourage attendance. A lot more to follow on this issue.

Some members are willing to take up this and any other issues at a meeting of members this coming Thursday, October 3rd, at the Socorro Public Library meeting room, 6 p.m. Use the McCutcheon St. side entrance to the library after the library has closed. Agenda items may be submitted before the meeting by email to thecynic@informedcynic.com
