**LETTER: Questioning The Socorro Co-op**

To the editor

Question: Why should the Socorro Electric Cooperative (that word cooperative is quite a joke) meet twice a month to accomplish nothing? Shouldn't one be sufficient?

Question: The Christmas party the board is planning for itself: Is my money paying for that, open bar and all, and I'm not invited?

Question: Why aren't the newly elected board members allowed to take their positions on the board immediately, responding to the will of the electorate, rather than having to wait until January.

Question: Why do we accept such irrational behavior?
