I highly recommend you go to the site <https://mainstreamnm.org/> and do the surveys. It's interesting that we are in District 1, but they are holding meetings by each regional water planning.

1) The LLC has drafted a "Notice of Submission of Service" with the Court requesting a hearing about Judge Woods's order.

I DON'T understand this, other than to mean they don't like what he told them. The other lawyers will have to weigh in on the meaning soon....more delays, and more legal fees....  
We're still gonna have to wait and see, but this is what we should have expected anyway.

They are waiting for us to quit. WE WON'T.

2) Nat, the Office of the State Engineer General Counsel, told us in the June 1st annual meeting about meetings being held throughout the state by the OSE on water planning. He ENCOURAGED US RATHER BLUNTLY to attend these meetings.  
See the website below. We can easily attend the meeting in July in Socorro. It isn't our region, but I, for one, am not really interested in driving to Silver City. Please let me know what everyone is thinking. Maybe we can have a convoy of carpoolers.

The website he is referring to is Mainstream NM. <https://mainstreamnm.org/>

Thank you to everyone who came to the hearing in Reserve to show our opposition to the application by Augustin Plains Ranch LLC to sell and remove our water.

The Honorable Judge Roscoe Woods ruled in our favor. This is our third successful challenge to the attempted water grab.

Heartfelt thanks to everyone for their years of support.
